This series, created by Paul Harris, focuses on overcoming common sight-reading challenges in the context of graded exams. The exercises are designed to build a complete understanding of each piece through rhythmic and melodic studies, followed by practice with prepared pieces and solo sight-reading. The program consists of 11 separate examples, each containing unison parts for Violin, Viola, Cello, and Double Bass. It is recommended to print each part front and back, making multiple copies as needed. The exercises cater to students learning on the D and A strings, with six pages of graded difficulty using notes in first position. This approach emphasizes self-learning, recognizing rhythmic and melodic patterns, and original tunes rather than abstract sight-reading exercises. It features 214 carefully graded pieces in various musical styles, spanning from open strings to 3rd position, including a set of duets and accompanied pieces for ensemble sight-reading. The series progresses towards all key signatures up to three sharps and flats, serving as a preliminary step towards grade 5.
